

UNI-HOC

WORKBOOK

COLOR OF THE SEASON

Pearl Turquoise

The success of last season's Radiant Red color and its pearly look, inspired us to continue our path in the same direction to find a new color with a similar flowing look in its finish. The result is our new color called **Pearl Turquoise**, which is now also featured in **several of our new stick lines**. We have also made sure to use it throughout the entire collection, creating a colorful and unified turquoise vibe for categories such as **bags**, **gripbands**, **accessories** and **blades**.

PRODIGY PERFORMANCE CONCEPT

PRODIGY PERFORMANCE CONCEPT is our line-up for the youngest players out there, featuring a wide range of lengths and blade options suitable for the stars of the future. This year we introduce the new color of the year in the concept, called **Pearl Turquoise**.

PRODIGY PERFORMANCE CONCEPT

SEASON 2025-2026

PRODIGY PERFORMANCE CONCEPT is our line-up for the youngest players out there, featuring a wide range of lengths and blade options suitable for the stars of the future. This year we introduce the new color of the year in the concept, called **radiant red**.

PERFORMANCE

The **PERFORMANCE SERIES** is our concept in the composite shaft segment. The series features a mix of our most popular blade models and are available for both junior and senior players.

EVOLAB
TOP LEVEL FLOORBALL DEVELOPMENT

Ice Grey

With the **EVOLAB** concept we have taken our focus on development further than ever before, trying to push the boundaries as far as physically possible. This is a process in which we gather all our internal knowledge and combine it with the input from the best floorball players in the world, pushing the limits of what is achievable as far as we can.

The result is the best products in the world, and something that we are very proud of.

CURVE SERIES

All our **CURVE** models are featured in the **CURVE SERIES**. The **CURVE** shaft is designed to increase the shot power of the player and its unique shaft construction with a slightly curved lower part creates an increased angle between the blade and the floor, adding extra power in the shot release.

PE

The **REGULAR PE** blade is our most common blade type, available in soft, medium, hard.

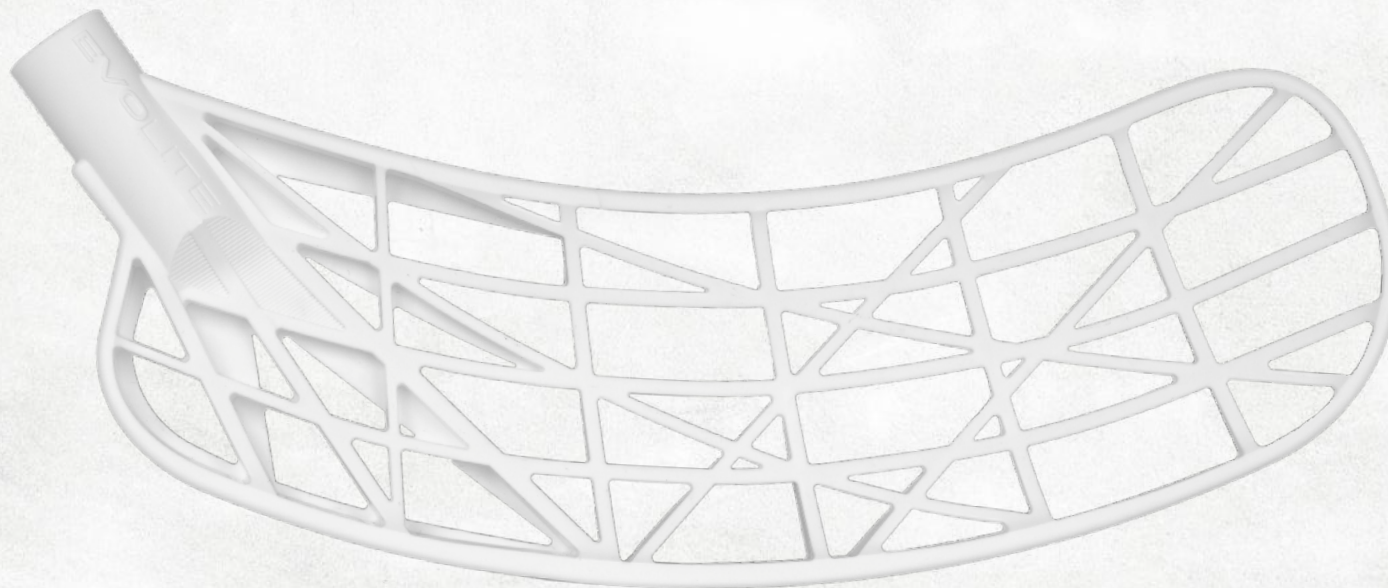

PP

The **FEATHER PP** is a lightweight blade with soft touch and high friction, available in medium.

PP^{TI}

TITAN PP is a super firm blade material with low friction against the floor surface.

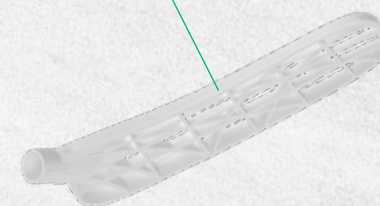

EVOLITE

In the spring of 2024 we dropped our new **EVOLITE** blade, following in the footsteps of the successful **UNILITE** blade. The new blade has a reinforced construction for added strength and it has also been slightly increased in size, and we have made sure to give it the same sensational touch and playability as its predecessor.

UNI LITE

UNILITE is our lightest blade ever. The construction is designed to cut unnecessary weight but still keep the torsional strength of the blade as well as the great playing characteristics. The result is a brand-new shape and bar system with medium pre-hook and concavity, combined with a clearly marked step between the frame and the playing surface for great ball control and shot release.

ICONIC

ICONIC is a shooting blade from Unihoc. This is the most aggressive blade in our collection, totally focused on optimizing the shooting qualities of the players. The blade has a distinctive concavity along the entire playing surface, starting immediately at the heel of the blade and running all the way to the tip. This concavity improves the ball handling by giving a great grip on the ball, and at the same time it adds extra power in the shot release.

SUBLIMATION

Now you can customize your own unique design for the **PHOENIX ECO** set by using **SUBLIMATION TECHNOLOGY**. This means that you can create your team's match set exactly as you want it in terms of colours, logos, player names and numbers. The design is sublimated into the fabric, which gives a soft garment without any printed transfers on it.

GOALIE

STABILITY

LIGHTWEIGHT

CUSHIONING

UX GOALIE is a modern goalie shoe that has been developed with mobility and comfort in mind. The new shoe has been developed as a combination of very strong and durable materials to create the perfect lightweight shoe for the modern goalkeeper.

The shoe is loaded with several special features such as the Slide Control Area, the Flexi Shank and the Lace Cover System. The dual outsole system makes the shoe very versatile and with a brand new design that will match any goalie set the new **UX GOALIE** model is sure to be a corner stone in our shoe collection.

28021

UX GOALIE

36-47

U4 PLUS

The **U4 PLUS** is a light performance shoe especially designed for floorball. The upper construction is made of breathable mesh for added comfort and cooling, and in combination with the printed hotmelt areas it gives a very modern floorball shoe with an optimized fit.

This technically crafted shoe offers all the benefits that a floorball shoe needs, such as low weight, excellent medial and lateral support, as well as great durability.

U3 JUNIOR

The **U3 JUNIOR** indoor shoe is the perfect model for the youngest players. This is a classic shoe model developed with strength and stability in focus. Strong micro fiber mesh has been used for the upper construction to give breathability and low weight, and in combination with a robust layer of PU the shoe is certain to offer both durability and comfort to match the high demands of the floorball game. The added U-frame along both sides ensures a strong construction and stability. The rubber outsole is made of non-marking rubber with excellent grip on the playing field.

BASIC COLLECTION

The **UNIHOC BASIC COLLECTION** is created to help spreading this fantastic sport across the globe. The floorball sport is getting more and more recognized and widespread each year and to be able to supply the new floorball markets with a suitable type of equipment to get the game going we have developed a range of products that is perfect for this purpose.

FLOORBALL RINK PREMIUM

The **PREMIUM RINK** sets a new standard for floorball rinks in terms of sustainability, materials and design. We have gathered a lot of information from our teams and federations to create the best floorball rink out there. The demands are always increasing along with the growth of the sport, and that is why we are very proud to present this high end rink to the market. The rink has 6 mm thick walls made of polypropylene (PP) plastic material. The PREMIUM rink model comes with substitution zones clearly marked in white top rail colour.

SEASON 2025-2026

RINK PREMIUM BLACK
COMPLETE 40X20M

**RINK CAN BE CUSTOMIZED
ACCORDING TO REQUIRED
MEASUREMENTS.**

57951
RINK PREMIUM BLACK
COMPLETE 24X14M

RINK PREMIUM SPLIT SYSTEM

The **SPLIT SYSTEM™** is developed as a complement to the PREMIUM and BASIC rinks, to make it possible to divide the gymnasium into several smaller playing fields. The **SPLIT SYSTEM™** consists of 4 pcs of corner parts, 14 pcs of 2.5m parts and 2 pcs of 1.5m parts (40x20m rink). A full-size playing field can thus be divided into 3 smaller fields as illustrated above. **57980**

FLOORBALL RINK BASIC

The **BASIC** sets a new standard for floorball rinks in terms of sustainability, materials and functionality. This BASIC rink model has slightly thinner walls than the PREMIUM model, which gives it not only a reduced weight but also a lower price. This rink model comes in solid black colour with no deviating contrast colour for the substitution zone top rails.

SEASON 2025-2026
